

PRODUCT SAFETY BULLETIN FOR CHAIN SLINGS

THIS BULLETIN CONTAINS IMPORTANT SAFETY WARNINGS AND DANGERS.

PRODUCT LABEL/TAG SAFETY WARNINGS

IDENTIFICATION TAGS:

- Each chain sling provided by Pewag includes a permanent Identification Tag. The Identification Tag includes the name of the manufacturer, the grade of chain, the nominal chain size, the number of chain legs, the length (reach) of the sling, the rated loads for the hitches used and the angle upon which the rating is based.
- Always look for proper and clear identification tagging including clear labeling of the Working Load Limit. Do not use a sling without proper identification or with a missing or unreadable tag.

- The owner and user of the chain sling is responsible for maintaining and repairing the sling identification tag during the life of the sling. Any tag that is missing or illegible shall be replaced with a proper and easily readable identification tag containing the required sling information, in accordance with OSHA regulations and ASME specifications. Order new identification tags from Pewag.
